

Led Techno has been a leading '**Solutions Provider**' for laboratories in the **Benelux** for 40 years, specializing in microbiological laboratories. We offer a wide range of products and services, including equipment, media, Neogen Petrifilm, glassware, plastics, protective clothing, and complete automation projects. Our core values are quality, expertise, customer orientation, and the well-being of our employees. At Led Techno we say:

"We care about our clients and employees!"

What will you do?

- Every day, as a **Field Service Engineer**, you will work with our customers for installation and preventive/corrective maintenance.
- You will ensure that we offer the best **service** to our customers.

What do we expect from you?

- You have a **degree** in electricity, electromechanics, measurement and control technology, or a related field.
- You have solid **electrical knowledge** and enjoy solving **technical problems**.
- You work externally at **customer sites**, ideally spending 100% of your time with clients.
- You are a true **team player**.
- You are **customer-friendly, responsible, and organized**.
- You are **flexible**.
- You speak **Dutch** and can communicate sufficiently in **French** or **English**.
- You have **PC knowledge**.
- Ideally, you live in the **Limburg** region.

What do we offer you?

- You are not just a number.
- You will be part of a **close-knit team**.
- You will have the opportunity and freedom to improve both the **service level** and your own skills.
- You will help build our growing **organization**.
- You will participate in **internal** and **external training**.
- You will have a **versatile** and **challenging** job.
- In addition to a fixed **gross monthly salary**, you will also receive **extra-legal benefits** such as a company phone with subscription, a laptop, a company car with fuel card, a cafeteria plan, expense reimbursement, etc.

We care about you!

Are you excited to become our colleague? Send your **CV** and **motivation** to iris.heulsen@ledtechno.be. Your application will be treated **confidentially**.
